

EUscreen Network Meeting 2019

14th-15th March 2019, Luxembourg

Dear EUscreen network friends,

we are very pleased to invite you to the EUscreen network meeting which will take place on 15 March 2019 in Luxembourg.

This year in our programme we will be exploring research possibilities with audiovisual collections. During the first session, the team from the University of Luxembourg will lead a hands-on workshop on the criticism of digital sources. In the afternoon, we will invite you to join an engaging panel discussion organised by the Centre National de l'Audiovisuel about research projects that address the representation of women in archival audiovisual collections (if your organisation is also exploring this topic, we would love to hear about it - please get in touch with us).

Similar to last year, we have reserved some time in the programme to hear about your projects and initiatives. Do let us know if you would like to inspire your fellow EUscreen members and present your current work.

If you would like to attend the meeting, please fill out the registration form [here](#). The preliminary agenda can be found below.

We also hope to see many of you at the FIAT/IFTA Media Studies Seminar [1989: Mapping New Frontiers of Europe and Beyond](#), organised on 14 March at the University of Luxembourg. After the seminar, we invite you to join us for social dinner.

We are really looking forward to seeing you all in Luxembourg!

Warmest regards,

Sonja, Maja, Rasa, Erwin, Johan, Marco, Arne, Martin
